SC Budget Guidelines

- Shifted two years ago, from single- to multi-year approach
- FY25-29 Guidelines:
 - Fund the educational strategies as presented in the Strategic Plan
 - Specific Directives on (1) Staffing/Enrollment, (2) Equity, (3) Budget

Strategic Plan FY25-27

- High-quality teaching and learning
- Enhancing literacy for all
- Adequate time on learning
- A foundation of equity

Other FY25 Directives within Guidelines

STAFFING/ENROLLMENT

- **For FY25:** Address class sizes at the high school to ensure class sizes are closer to recent historical trends, with fewer larger classes, and broader availability of science classes for more students. Leverage new enrollment forecasts to identify where positions can be shifted.
- **For FY25:** Provide resources (for staffing and space adaptation) to transition to a full-day model, and return BEEP classrooms from Clark Road to the elementary schools and/or high school.

EQUITY

- **For FY25:** Fund Extended School Year programming that increases access to ESY by providing coordinated wraparound opportunities, including but not limited to socioemotional learning, therapeutic recreational activities, and enrichment.

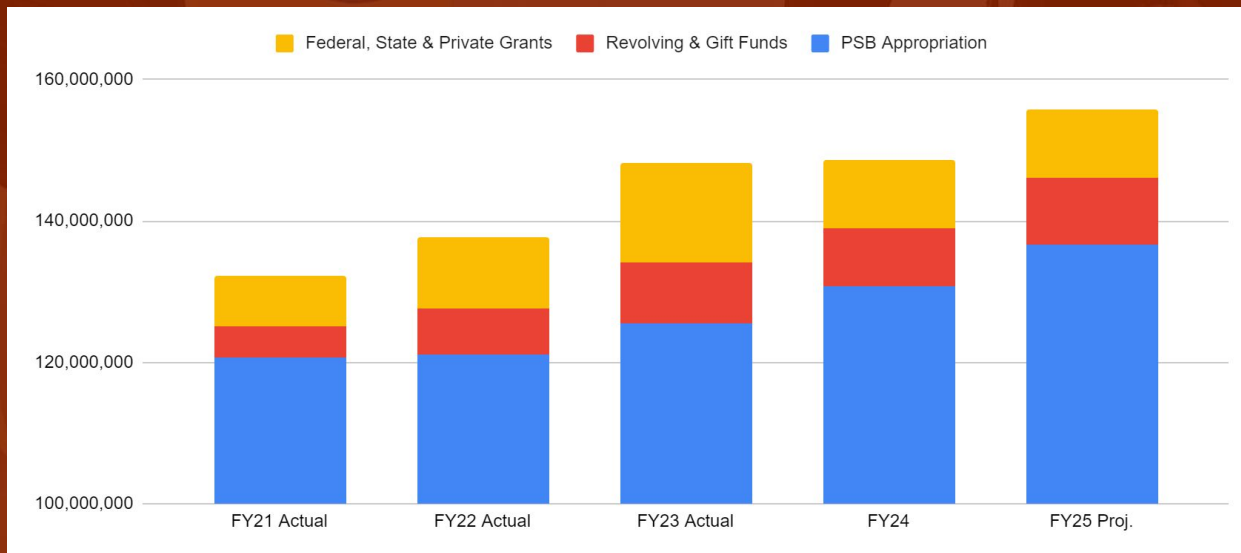

BUDGET

- **For FY25:** To the extent possible, provide funds for approved School Improvement Plan (SIP) activities to be expended at the building level.
- **Starting in FY25:** Return to prior practice of holding reserve funds for a limited number of staff. This can be done over multiple years to lessen the impact of any one year.

Budget Strategy

- Prior year budget spending analysis
- Ensuring budget justification for resource request
- Targeted use of grant funding for piloting purposes
- Adherence to and alignment with MA School Finance guidelines

Budget Strategy: Position Control

- For every staffed position, you can think about it as having two parts: a chair (the position) and a body (the person hired)
- When creating the FY25 budget, we kept a careful count of the chairs.
 - If the chair is presently occupied, we know the actual cost of the chair.
 - If the chair is currently empty, we can estimate the cost pretty closely, but know that it may shift up or down depending on who eventually sits in it.

Budget Strategy: Position Control cont.

- Position Control is a way of flagging each chair, indicating that a chair is needed, funded and empty before any hiring takes place.
 - Without Position Control, hiring managers tend to think in terms of replacing people, and lose track of how many chairs have actually been funded.
- FY25 budget, we have created a new Position Control coding system that will be used in MUNIS and in all hiring activities through HR and Finance. *No hires will be approved without confirmation that a position exists with appropriate funding in the budget.*
